HE WON'T BESIGN. Mr. Hyde heard of the action taken by the agents first from newspaper men shortly before 4 o'clock. He was in his office in the Equitable Building. A few minutes after 4 a teleptione message was received from a man who said he was a member of the committee and Mr. Byde sent lack word that he would see the com-

mittee any time before 5 o'clock.

Then Mr. Hyde summoned two of his counsel, Samue Untermyer and William C. Gulliver. Winslow S. Pierce, E. H. The lawyers remained with Mr. Hyde until 5:15 o'clock when as none of the committee had appeared, they eparted.

A few minutes later Mr. Hyde himself appeared before the crowd of reporters in his outer offices. Said he:

"Gentlemen, I haven't seen the committee and I haven't seen the resolution.

I regard the action of the agents as important actions. pertinent, extraordinary, insulting, most preposterous. I have no intention of re-

There was a small army of photographers camping in front of the Equitable Building for the committee which never came, and they trained their machines on Mr. Hyde and his friend as they drove away, almost blocking Broadway for a few seconds. Afterward the arrangement was made by which the committee will see Mr. Hyde this morning.

WARM TIME AT THE SAVOY.

WARM TIME AT THE SAVOY.

The meeting at which the communication was drawn up was a most excited one. Fully half of the agents present made speeches in which the incidents of the present factional strife were gone over. At times the clamor could be heard down in the corridors of the hotel.

Before the meeting a stir was created by the arrival of Mr. Tarbell. He was angry about an alleged interview with H. H. Knowles, formerly a superintendent of agencies, who was described as saying that the whole fight was a plot on Mr. Tarbell's part to become president of the society under a compact with Mr. Alexander. Mr. Tarbell, when asked about this, drew a crowd around him from all over the corridors.

"Who is this man Knowles?" he cried. "Who is this man knowlest he cried."
Why, he is nothing. He is not even in the company now. It is all lies. Mr. Alexander, as every one knows, can remain president as long as he lives. His intention is to hold the office until he dies. He is the soul of honor, and would cut off his right hand if he could prevent this scandal."

honor, and would cut off his right hand if he could prevent this scandal."

Most of the agents nodded their heads in approval. In the meeting the Alexander men had complete control. Seech after speech was made demanding radical action. D. W. Cobb of Kansis told of a trip he had made to this city three years ago for the purpose of seeing Mr. Hyde.

MR. COBB HAS INTERVIEWED MR. HYDE. "It is not the time." said Mr. Cobb, "to go into Mr. Hyde's fantastic actions don't go with my people. I've been an insurance agent over wenty years and I have given my word and the circulars of the society had also stated that the surplus of the Equitable beloaged to the policyholders and that it was a mutual company. Three years ago, I could not stand it any longer and I decided to come on to New York and ask Mr. Hyde this one question: 'Does the surplus belong to the policyholders and that it was a mutual company. Three years ago, I could not stand it any longer and I decided to come on to New York and ask Mr. Hyde this one question: 'Does the surplus belong to the policyholders or to you as a stockholder?' Gentlemen this was his answer and from it you can judge for yourselves of his capacity as vice-president. He smiled in a languid tired way and wearily replied: 'Tim not an attorney.' I repeated the question three times and each time that is what he said.'

There was laughter at this and when Mr. Cobb sat down after advocating that Mr. Cobb sat down after advocating that Mr. Cobb sat down after advocating that Mr. Hyde be asked to resign he was cheered, by all except the Hyde agents.

"Leave it to the Frick committee to find out who is guilty, if any one has been, and don't, make yourselves ridiculous," said one of these.

In reply some of the agents said that they had been lond the agents filed downstairs none of them would say a word about what had been done, and all said they had been of them would say a word about what had been done, and all said they had been ledged to secrecy.

It leaked out very quickly. Secretary, McNamee met Mr. Knowles in the corridor and accused him of being the cause of the "You're a traitor," shouted Mr. McNamee,

advancing on Mr. Knowles, who disappeared into the dining room.

The agents are to meet again at H o'clock and hear the report of the committee that is to see Mr. Hyde.

MR. ALEXANDER MADE A SPEECH. That the meeting had been absolutely dominated by the Alexander side was shown at the afternoon session, when one of the first things done was the appointment of a committee of agents to invite Mr. Alexander and Mr. Tarbeil to attend as guests. Mr. Alexander and Mr. Tarbeil appeared in a very few minutes.

Mr. Alexander thanked the agents for the confidence they had expressed in him by their resolution of the day before. He said that he was 65 years of age, that he had always been true to the best interests of the society and as long as he lived would guard its interests guard its interests and the interests of the policyholiers and managers. He said that it was his fight personally and that Mr. Tarbell had nothing to do with it. "I believe," he said, "that we shall see our troubles settled in a manner satisfactory

After the reception to Mr. Alexancer and Mr. Farbell the receing adopted this resolution.

There is, however, something sad and almost grotesque in this belated effort of Mr. Alexander, after participating with Mr. Hyde for many years, to find in innocent transactions to which he was a party and by which he equally lost or benefited a ground for attacking Mr. Hyde and at the same time trying by profuse eleventh hour letter writing to extricate himself.

"A glance at the dates of these letters, all written within the past month whil! this controversy has been at fever heat, will render further comment quite unnecessary. Two of them, one addressed to Mr. Hyde and the other addressed to Mr. Frick, are what may be called 'stage correspondence.'

"As to the previous checks, he does not apparently claim to have done so. As to the list payment on Jan. 23 of \$12,523.73, the proceeds of which are now said to have been handed over by Mr. Alexander to the cashier or the trustee account of the society, it would be interesting to know when that was done.

THE EARLIER CHECKS TO ALEXANDER. Mr. Alexander's friends, did not deny that the only two checks which the society's president had turned into the society were the ones dated Jan. 11 and Jan. 23. They explained President A exander's failure to take similar action with respect to the others by saying that Mr. Alexander had absolutely no knowledge of the details of the underwriting transactions and that it was not until he received the check for \$28.000 on Jan. 11 that he learned that the profits came partly transactions and that it was not until the received the check for \$28,000 on Jan. 11 to at he learned that the profits came partly from the sale of securities to the society. Mr. Alexander, it was said, had accepted the smaller checks as a matter of course without inquiring into the details of the management of the syndicate by Mr. Hyde and without suspecting that they represented any questionable transactions. It was the size of the check which led him to inquire closer into the conduct of the syndicate's business on Jan. 11. Mr. Alexander's friends thought also that the society's president had paid his share of the losses whenever there were any losses without inquiring from Mr. Hyde the exact nature of the syndicate transactions. Until Mr. Alexander received the check for \$28,000 there had been only one payment by the syndicate of more than \$5,000. Mr. Hyde, so far as President Alexander has been able to find out, it was declared, was the only man who had the records of the syndicate's transactions and was familiar with its business in ideal. cate's transactions and was familiar with its business in detail.

### It is Easy to Produce Good Music with The PIANOLA PIANO

It is easier to play a Liszt Rhapsody on the Pianola Piano than a five-finger exercise on the ordinary piano. A little perforated roll does all the mechanical drudgery as well as supplies all necessary technical knowledge, and leaves the performer free to give undivided attention to the expression and enjoyment of the music.

The ordinary piano, while a real musical instrument when properly played, is in the average home little more than an expensive article of furniture. Its musical limitations have been overcome in the Pianola Piano by combination with the Metrostyle Pianola-the standard piano player. That the musical and artistic superiority of the new instrument is recognized by cultured music lovers is shown in the large number of grand and upright pianos of all representative makes which have already been exchanged for it.

THE PIANOLA PIANO is an upright Piano of the highest type, complete in every detail. It is always available for hand playing without being limited to it. It has a keyboard like any piano. But when manual dexterity can go no farther, or when the fingers tire-or more especially when there is no one in the home who can play at all -it is only necessary to slide back a panel for the insertion of the perforated music rolls, and step immediately into the field of all the music there is.

Since the invention of the Metrostyle-which is incorporated in all Pianola Pianos-these perforated rolls furnish not only a fau'tless technique, but also an authoritative guide to correct interpretation which can be easily followed by the most unskilled. The Pianola Piano with the Metrostyle is thus an instrument which gives more in the way of musical instruction and enjoyment than anything it has ever before been possible to take into the home.

The Pianola Piano does not differ from the ordinary upright piano in any outward aspect. Both Piano and Pianola are fully as effective as the separate instruments, while being more convenient and economical of space. Prices of the Pianola Piano \$500 to \$1,000. Descriptive literature and music catalogues showing repertory, sent to any address on request. Weber Pianola Pianos; Acolian Pianola Pianos; Wheelock Pianola Pianos.
